Conditions and Maintenance of Certification Requirements Task Force

Denise Webb, co-chair
Raj Ratwani, co-chair

May 1, 2019

Agenda

- Call to Order/Roll Call

- Discussion of Outstanding Recommendations

- Public Comment

- Next Steps and Adjourn

Discussion of Outstanding Recommendations

Application Programming Interfaces

- **Recommendation 22:** The CMC TF has concerns over ONC not proposing a standard way for a request for multiple patients' data and recommends ONC specify a standard approach that will be available in FHIR R4. Otherwise, each developer could implement this differently and invest time in non-standard ways and then likely have to spend time/money transitioning to the standard way. The CMC TF also recognized that there is an immediate need now to satisfy this type of request. If ONC identifies FHIR R4 for implementation in the final rule, the FHIR R4 standard could be used for bulk queries but on a different timeline than implementation of more established R4 implementation guides that support a search for a single patient's data. The TF would like to see successful implementations of products that search for multiple patients using the FHIR R4 standard prior to requiring adoption across the industry of this 2015 Edition certification criterion for multiple patients.

Applicability of Conditions and Maintenance of Certification Requirements for Self-Developers

- **Recommendation 25 [Placeholder]**: The CMC TF will be advancing a recommendation to the HITAC for consideration at the May 13 HITAC meeting regarding the applicability of the Conditions and Maintenance of Certification requirements for real world testing, APIs, and attestations to self-developers and their certified Health IT Modules. The TF is still deliberating on this recommendation and has not come to consensus yet.

To make a comment please call:

Dial: 1-877-407-7192

*(once connected, press "*1" to speak)*

All public comments will be limited to three minutes.

You may enter a comment in the
"Public Comment" field below this presentation.

Or, email your public comment to onc-hitac@accelsolutionsllc.com.

Written comments will not be read at this time, but they will be delivered to members of the Workgroup and made part of the Public Record.
