  - » Steven Lane, Task Force Co-Chair

- **Public Comment**

The Office of the National Coordinator for
Health Information Technology

ISP Task Force Charge

- **Overarching Charge**: To make recommendations on priority uses of health information technology and the associated standards and implementation specifications that support such uses.

- **Specific Charge**: The ISP Task Force will:

  1. Make recommendations on the following:

     – Priority uses of health IT (consistent with the Cures Act's identified priorities);

     – The standards and implementation specifications that best support or may need to be developed for each identified priority; and

     – Subsequent steps for industry and government action.

  2. Publish a report summarizing its findings.
