Today's Agenda:

- Roll Call and Welcome
- Summary and Action Plan
- Review Draft Paper and Comments
- HITAC Draft Presentation
- Public Comment
- Next Steps

Vision: Support the convergence of clinical and administrative data to improve data interoperability to support clinical care, reduce burden and improve efficiency—furthering implementation of “record once and reuse.”

Overarching Charge: Produce information and considerations related to the merging of clinical and administrative data, its transport structures, rules and protections, for electronic prior authorizations to support work underway, or yet to be initiated, to achieve the vision.

A large, abstract graphic composed of overlapping, semi-transparent geometric shapes (triangles, hexagons, and squares) in various shades of blue, green, yellow, and orange. The shapes are arranged in a way that creates a sense of depth and movement, with some shapes appearing to be layered on top of others. The overall effect is a complex, multi-colored pattern that fills the left and center of the page.

Summary and Action Plan

Last Meeting

- Draft Recommendations Comments and Discussion
 - Sheryl and Alix led the group through Sheryl's analysis of the draft recommendations, gaps identified, and recommendations presented by others to the Task Force. The group discussed at length, and noted edits and additional items for discussion. They then described plans to further update the draft, encouraged all Task Force members to review the Google document and enter their comments, and noted that next week we will review what is entered.
