

ONC Objectives, Benchmarks, and Measurements

HITAC Meeting, October 21, 2020

Elise Sweeney Anthony, Executive Director, Office of Policy, ONC

Seth Pazinski, Director, Strategic Planning and Coordination Division, ONC

Talisha Searcy, Deputy Director, Technical Strategy and Analysis Division, ONC

The Office of the National Coordinator for
Health Information Technology

21st Century Cures Act Requirement

For the purpose of the HITAC Annual Report, Section 4003 of the 21st Century Cures Act states that:

“ ...the National Coordinator, in collaboration with the Secretary, shall establish, and update as appropriate, objectives and benchmarks for advancing and measuring the advancement of the priority target areas...”

- ONC sets the objectives and benchmarks used in the development of the HITAC Annual Report
- ONC objectives and benchmarks align with the draft **2020-2025 Federal Health IT Strategic Plan**
- ONC is open to feedback from HITAC members about the objectives and benchmarks, in particular how these advance the priority target areas

ONC Objectives in the Draft 2020-2025 Federal Health IT Strategic Plan

Objectives

Goal

Advance the
development and
use of health IT
capabilities

Establish
expectations
for data sharing

**Connect
Healthcare with
Health Data**

ONC Activities for Benchmarking Progress

Standards

Certification

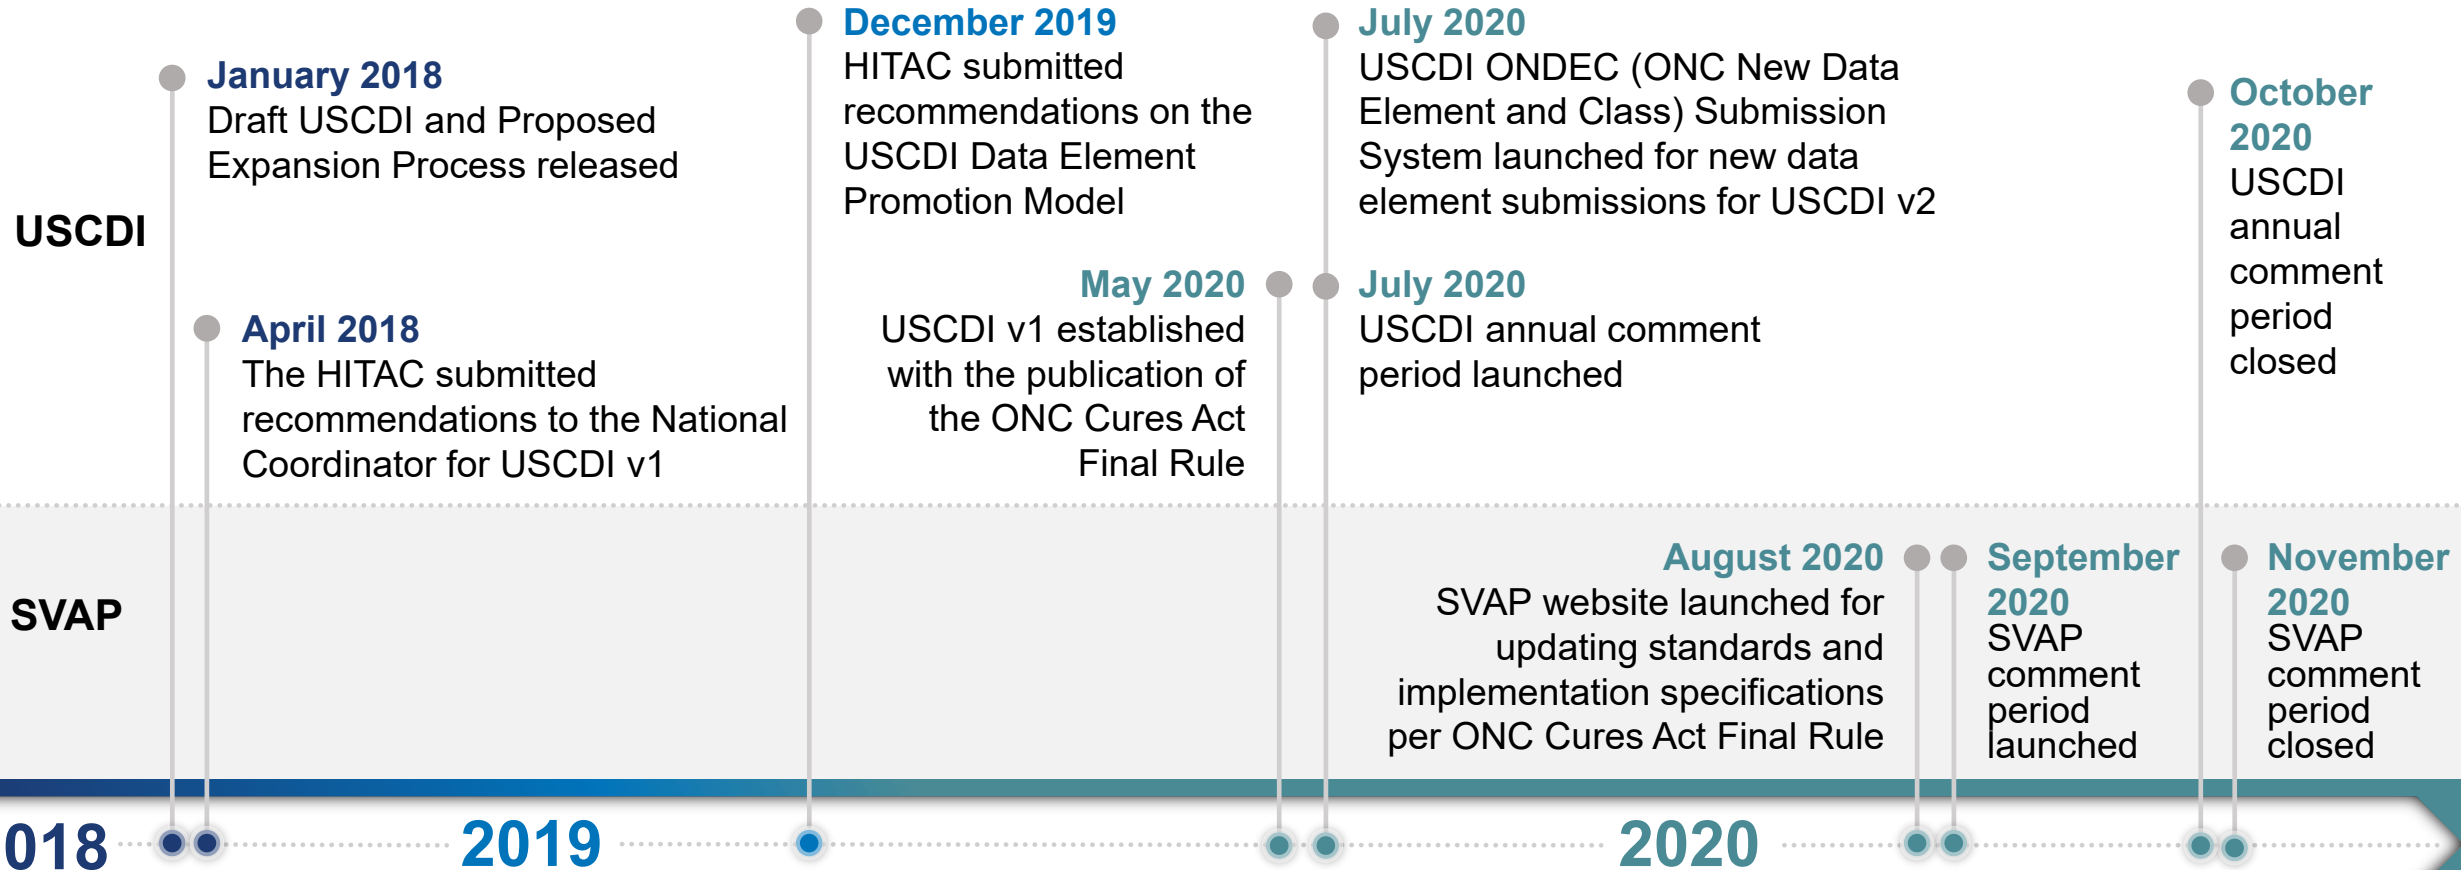

Exchange

ONC Standards Activities:

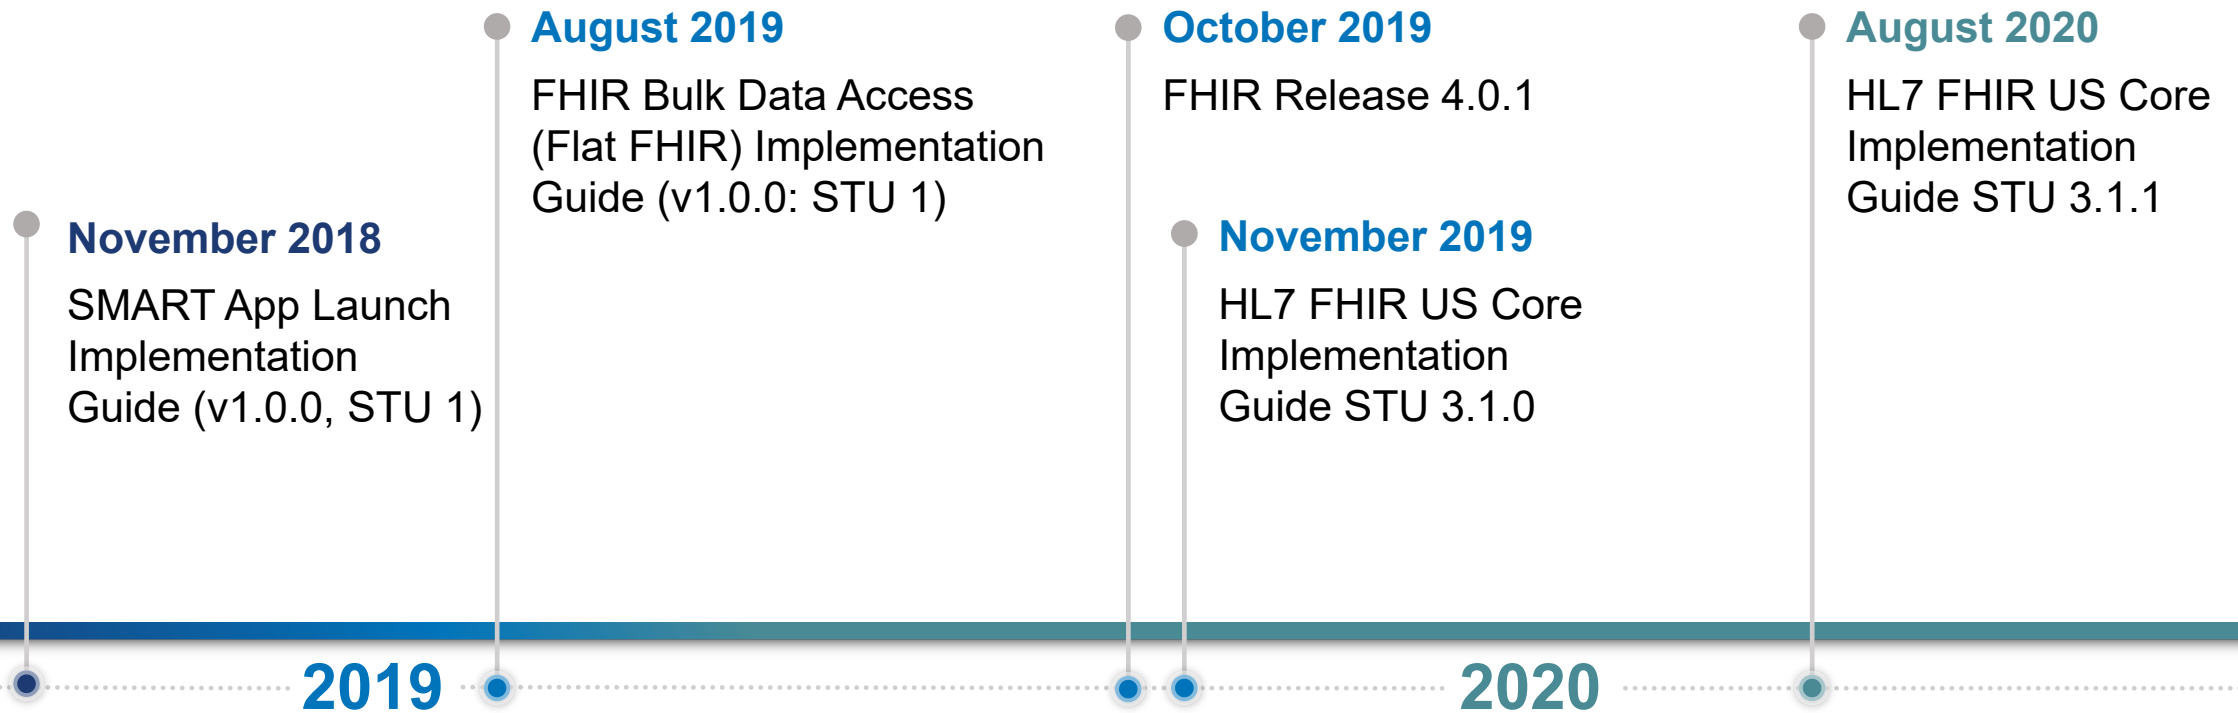

United States Core Data for Interoperability (USCDI) and Standards Version Advancement Process (SVAP)

FY18-FY20 Accomplishments:

ONC Standards Activities: Fast Healthcare Interoperability Resources (FHIR®)

FY18-FY20 Accomplishments:

ONC Standards Activities:

United States Core Data for Interoperability (USCDI), Standards Version Advancement Process (SVAP), and Fast Healthcare Interoperability Resources (FHIR®)

FY21-FY22 Milestones:

- USCDI** • Update versions of USCDI with additional data classes/data elements
- SVAP** • Publish National Coordinator approved updated versions of health IT standards and implementation specifications via SVAP process
- FHIR**
 - Release HL7 FHIR R5
 - Update HL7 US FHIR Core Implementation Guide to align with USCDI updates
 - Collaborate with Standards Development Organizations (SDOs) to Accelerate FHIR API Standards' Ability to Support Use Cases for Population-Level Query Services
 - Publish FHIR-related guidance on Integrating the Healthcare Enterprise® (IHE) profiles

2021

2022

ONC Standards Activities: Public Health

FY21-FY22 Milestones:

Support Standards Development Organizations

- Develop FHIR resources to address disease, chronic conditions, and environmental factors
- Develop and update standards and Implementation Guides related to privacy, security, and consent
- Encourage the adoption of FHIR Bulk Data Access (Flat FHIR) Implementation Guide
- Support HL7 US Realm

Lab Standards

- Develop COVID-19 and public health related LOINC special use codes that describe laboratory tests ordered and taken
- Standardize the lab test order names to reduce erroneous lab orders and/or results

Support Health Information Exchange (HIE) Services

- Build innovative HIE services that benefit public health agencies
- Improve the HIE services available to support communities disproportionately impacted by the COVID-19 pandemic

Support Standards for Federal Partners

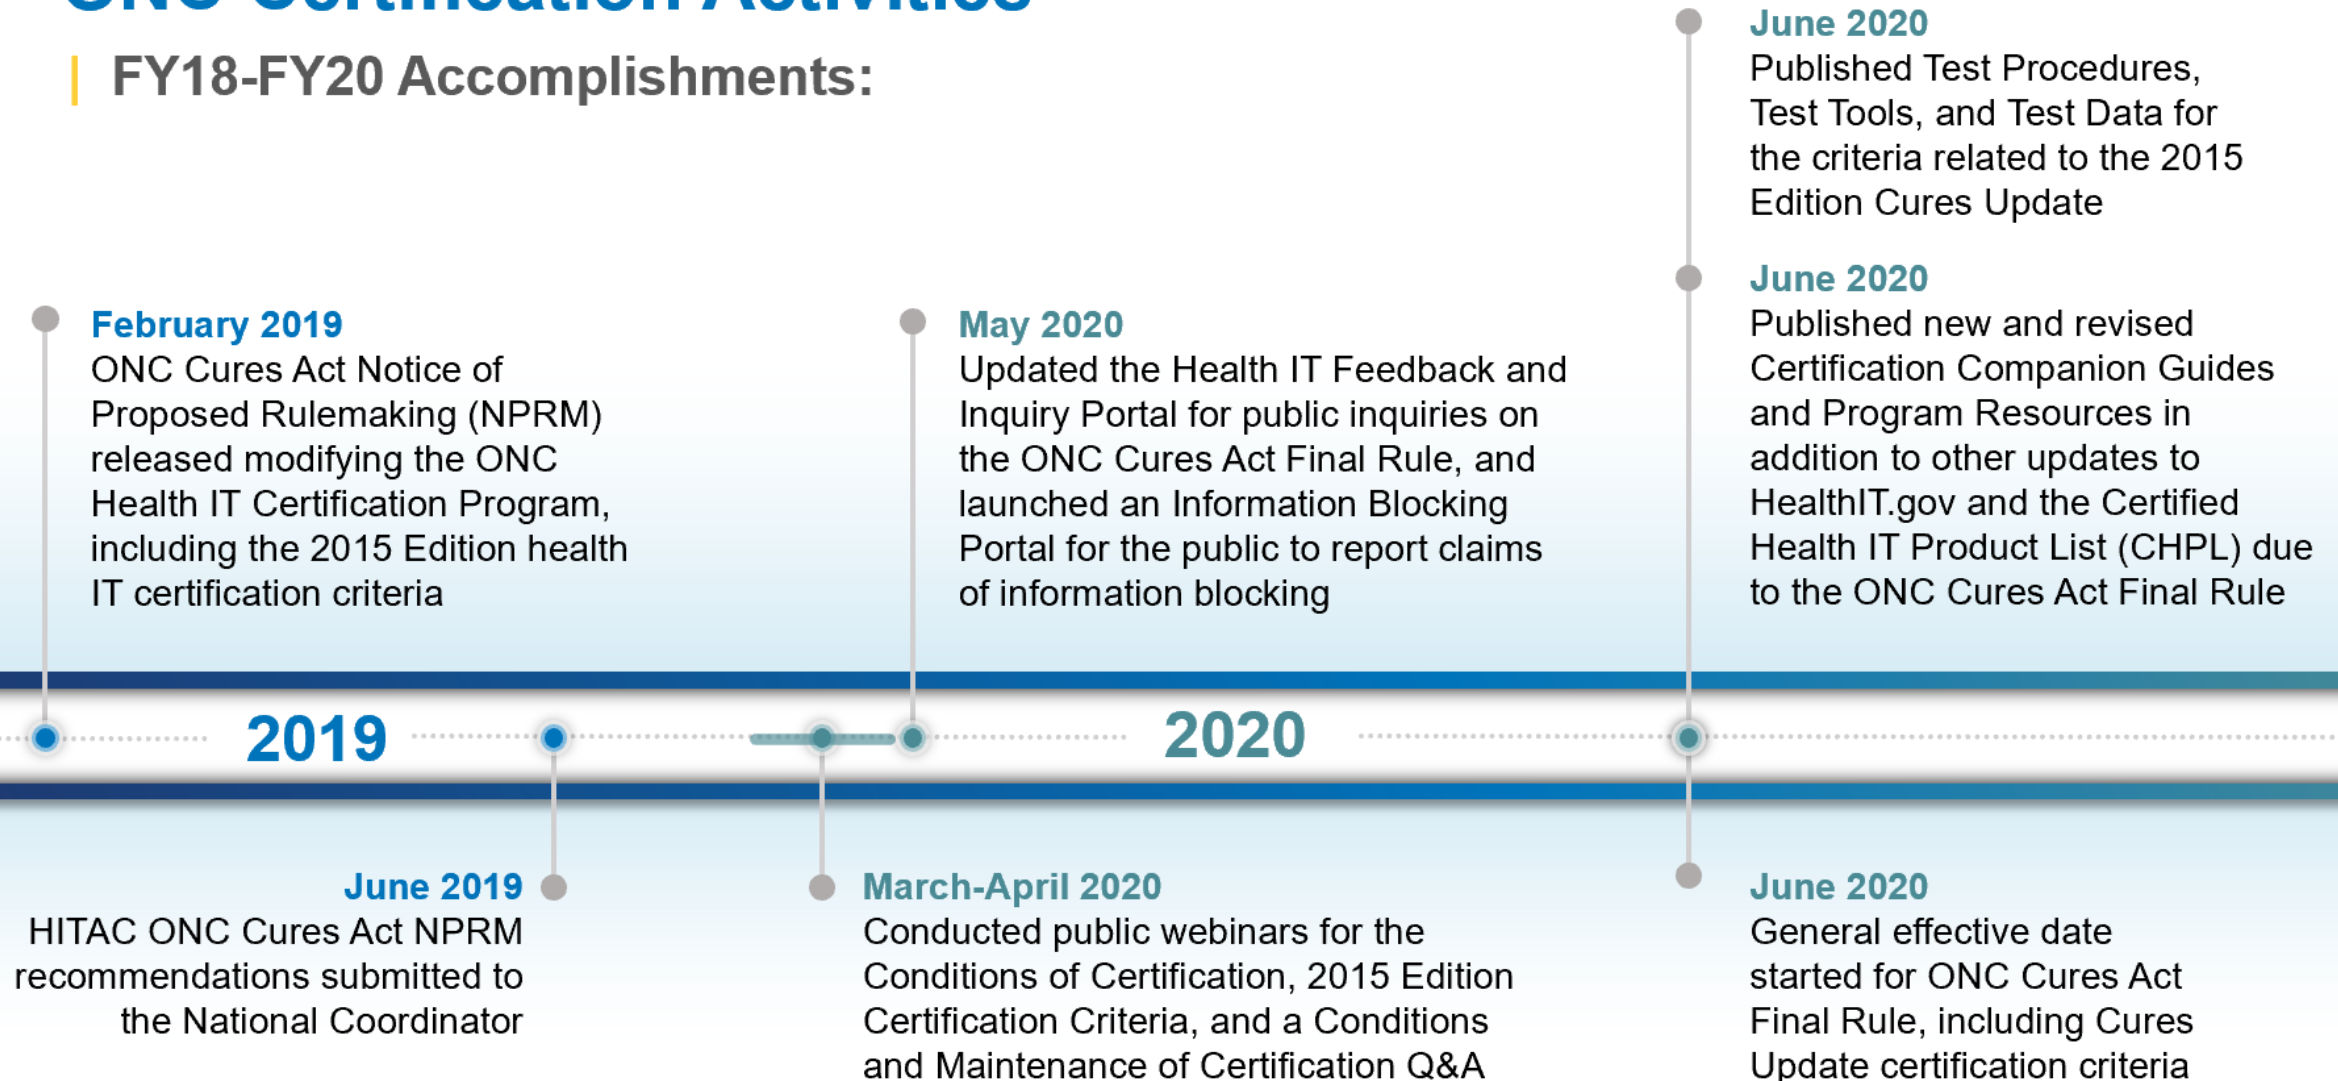

- Facilitate testing, final balloting, and real-world deployment of Situational Awareness for Novel Epidemic Response Implementation Guide for use by Federal partners

2021

2022

ONC Certification Activities

FY18-FY20 Accomplishments:

ONC Certification Activities

FY21-FY22 Milestones:

- Compliance requirements start for several Conditions of Certification, including Information Blocking, Assurances, API, and Communications
- First Real World Testing Plans due
- First Attestations to Conditions and Maintenance of Certification due

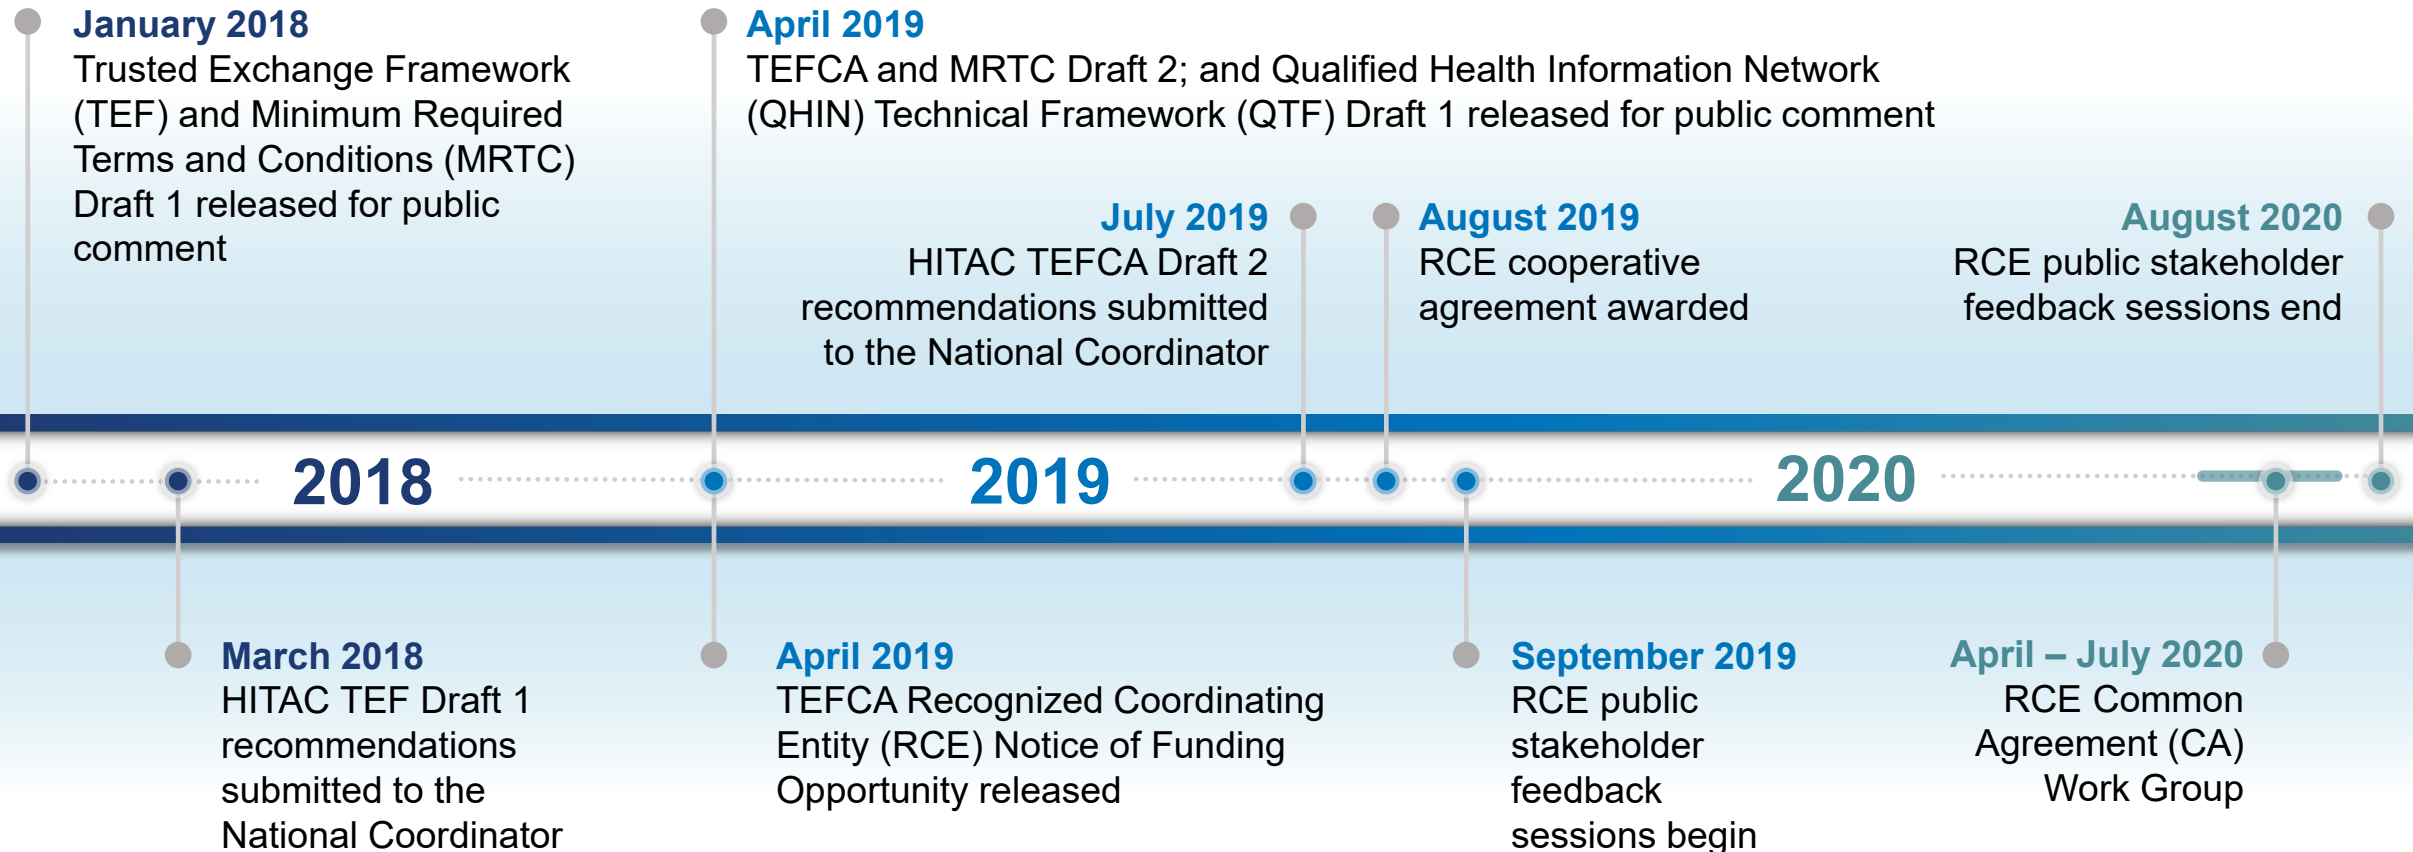

2021

2022

ONC Exchange Activities:

Trusted Exchange Framework and Common Agreement (TEFCA)

FY18-FY20 Accomplishments:

ONC Exchange Activities:

Trusted Exchange Framework and Common Agreement (TEFCA)

| FY21-FY22 Milestones:

- Common Agreement (CA) Draft Version 1 and Qualified Health Information Network (QHIN) Technical Framework (QTF) Draft 2 60-Day Public Comment Period
- Final Trusted Exchange Framework, CA Version 1, and QTF Version 1 Published

2021

2022

Connected Healthcare with Health Data:

Priority Target Areas in the Cures Act

Patient Access:

The facilitation of secure access by an individual and their caregiver(s) to such individual's protected health information

Interoperability:

Achieving a health information technology infrastructure that allows for the electronic access, exchange, and use of health information

Privacy and Security:

The promotion and protection of privacy and security of health information in health IT

In addition to the priority target areas, the HITAC may consider certain additional target areas defined in the 21st Century Cures Act. For example, the HITAC is considering **“Use of Technologies that Support Public Health”** as an additional target area.

Intermediate Outcomes

- 
Increase standardization, completeness, and quality of electronic health information
- 
Support growth of vibrant health app economy
- 
Enhance technical capabilities and requirements to make electronic health information readily available
- 
Simplify and increase the scale of electronic health information exchange

Interoperability Across Stakeholders

Increase Access Exchange, and Use of Electronic Health Information

Feedback on Measurement Areas

Intermediate outcomes

- Are these the right measurement concepts?
- What is missing that would be valuable to address?
- What should we prioritize?
- What concept is feasible to measure now vs. the longer-term?

Interoperability across the stakeholders

- Should ONC's measurement focus on access, exchange, and use of electronic health information?
- What stakeholders should we be measuring across?
- Who should be prioritized in the near-term?
- Should we be measuring the same set of outcomes across these stakeholders?

Data collection methods

- What are data sources and methods available to obtain this information?
