Interoperability Standards Workgroup Charge

Discussion of Specific Charges

Due

April 13, 2022

1 Evaluate Draft USCDI v3 and provide HITAC with recommendations for:

1a - New data classes and elements from Draft USCDI v3

1b - Level 2 data classes and elements not included in Draft USCDI v3

Potential areas of focus-

ONC called for general feedback on Draft USCDI v3 content

1. Are there any improvements needed in the data classes or elements included in Draft USCDI v3, including:
 - a) Appropriate and meaningful data class and element names and definitions?
 - b) Representative examples or value sets used by health IT developers and implementers to fully understand the intent of the data element?
2. Should other data elements classified as Level 2 be added to USCDI v3 instead, or in addition to those included in Draft USCDI v3? If so, why?
3. Are there significant barriers to development, implementation, or use of any of the Draft USCDI v3 data elements that would warrant not including them in USCDI v3?
